

Andrei Loginov

General Silicon Meeting
04.12.2001

Event Display *status/plans*

➡ ***Status:***

- Henry J. Frisch request:
- x **SVT tracks adding** is in progress

➡ ***Known silicon problems:***

- Reported by Kevin McFarland:
 - x ISL barrels are rotated in phi from their proper positions.
 - x Some ISL sensors are upside down compared to the real geometry.
 - x ISL half ladders have two wafers rather than three.
 - x There are no gaps between ladders.
- Reported by Petra Merkel:
 - x Corrected silicon hits are not shown

➡ ***"Silicon" plans:***

- x To complete **SVT tracks adding** task in a week
- x To solve the known problems

➡ ***My request to Silicon Group:***

- x I need a data file which contains SVTD bank for testing
